### Neck Disability Index

This <b>Plea</b> state	This questionnaire has been designed to give us information as to how yo Please answer every section and mark in each section only the one I statements in any one section relate to you, but please just mark the box to	This questionnaire has been designed to give us information as to how your neck pain has affected your ability to manage everyday life.  Please answer every section and mark in each section only the one box that applies to you. We realize you may consider that two or more statements in any one section relate to you, but please just mark the box that most closely describes your problem.
Sect	Section 1: Pain Intensity	Section 4: Reading
	I have no pain at the moment	☐ I can read as much as I want to with no pain in my neck
	The pain is very mild at the moment	☐ I can read as much as I want to with slight pain in my neck
	The pain is moderate at the moment	☐ I can read as much as I want with moderate pain in my neck
	The pain is fairly severe at the moment	can't read as much as I want because of moderate pain in my neck
	The pain is very severe at the moment	Call lial by lead at all because of severe paint in his neck
	The pain is the worst imaginable at the moment	
Secti	Section 2: Personal Care (Washing, Dressing, etc.)	Section 5: Headaches
65		☐ I have no headaches at all
	I can look after myself normally without causing extra pain	☐ I have slight headaches, which come infrequently
	I can look after myself normally but it causes extra pain	I have moderate headaches, which come infrequently
	It is painful to look after myself and I am slow and careful	<ul> <li>I have moderate headaches, which come frequently</li> </ul>
	I need some help but can manage most of my personal care	<ul> <li>I have severe headaches, which come frequently</li> </ul>
	I need help every day in most aspects of self care	I have headaches almost all the time
	I do not get dressed, I wash with difficulty and stay in bed	Section 6: Concentration
Sect	Section 3: Lifting	☐ I can concentrate fully when I want to with no difficulty
	I can lift heavy weights without extra pain	<ul> <li>I can concentrate fully when I want to with slight difficulty</li> <li>I have a fair degree of difficulty in concentrating when I want to</li> </ul>
	I can lift heavy weights but it causes extra pain	☐ I have a lot of difficulty in concentrating when I want to
	Pain prevents me from lifting heavy weights off the floor, but I can	<ul> <li>I have a great deal of difficulty in concentrating when I want to</li> </ul>
	manage if they are conveniently placed; for example, on a table	☐ I cannot concentrate at all
	Pain prevents me from lifting heavy weights but I can manage light	
	to medium weights if they are conveniently positioned	
	I can only lift very light weights	
	I cannot lift or carry anything	

### Section 7: Work

<ul> <li>□ I can do as much work as I want to</li> <li>□ I can only do my usual work, but no more</li> <li>□ I can do most of my usual work, but no more</li> </ul>	
I cannot do my usual work     I can hardly do any work at all	<ul> <li>My sleep is mildly disturbed (1-2 hrs sleepless)</li> <li>My sleep is moderately disturbed (2-3 hrs sleepless)</li> </ul>
Can tao any work at all	
Section 8: Driving	<ul> <li>My sleep is completely disturbed (5-7 hrs sleepless)</li> </ul>
□ I can drive my car without any neck pain	Section 10: Recreation
<ul> <li>I can drive my car as long as I want with slight pain in my neck</li> </ul>	and the solution of the second second of the second
□ I can drive my car as long as I want with moderate pain in my neck	pain at all
<ul> <li>I can't drive my car as long as I want because of moderate pain in</li> </ul>	☐ I am able to engage in all my recreational activities, with some pair
my neck	in my neck
can nardiy drive at all because of severe pain in my neck	□ I am able to engage in most, but not all of my usual recreational
ר כשון רחואב וווא כשו שן שוו	activities because of pain in my neck
Section 9: Sleeping	☐ I am able to engage in a few of my usual recreational activities
	because of pain in my neck
☐ I have no trouble sleeping	I can hardly do any recreation activities because of pain in my neci
☐ My sleep is slightly disturbed (less than 1 hr sleepless)	☐ I can't do any recreation activities at all
Patient Name Patient Signature	Date
Score:/50	tage score x 100 =% points

Scoring: For each section the total possible score is 5: if the first statement is marked the section score = 0, if the last statement is marked it = 5. If all ten sections are completed 16 (total scored); 45 (total possible score) x 100 = 35.5% Example: 16 (total scored); 50 (total possible score) x 100 = 32% the score is calculated as follows:

If one section is missed or not applicable the score is calculated:

Minimum Detectable Change (90% confidence): 5 points or 10 % points

NDI developed by: Vernon, H. & Mior, S. (1991). The Neck Disability Index: A study of reliability and validity. Journal of Manipulative and Physiological Therapeutics. 14, 409-415

# The Roland-Morris Disability Questionnaire

When your back hurts, you may find it difficult to do some of the things you normally do.

This list contains sentences that people have used to describe themselves when they have back pain. When you read them, you may find that some stand out because they describe you today.

As you read the list, think of yourself today. When you read a sentence that describes you today, circle the number. If the sentence does not describe you, do not circle it and go on to the next one. Remember, only circle the sentence if you are sure it describes you today.

- I stay at home most of the time because of my back.
- I change position frequently to try and get my back comfortable.
- I walk more slowly than usual because of my back.
- Because of my back I am not doing any of the jobs that I usually do around the house.
- Because of my back, I use a handrail to get upstairs.
- Because of my back, I lie down to rest more often.
- 7. Because of my back, I have to hold on to something to get out of a
- Because of my back, I try to get other people to do things for me.

- l get dressed more slowly than usual because of my back.
- I only stand for short periods of time because of my back.
- Because of my back, I try not to bend or kneel down.
- I find it difficult to get out of a chair because of my back.
- My back is painful almost all the time.
- I find it difficult to turn over in bed because of my back.
- My appetite is not very good because of my back pain.
- I have trouble putting on my socks (or stockings) because of the pain in my back.
- I only walk short distances because of my back.
- I sleep less well because of my back.
- Because of my back pain, I get dressed with help from someone
- I sit down for most of the day because of my back.
- I avoid heavy jobs around the house because of my back.
- Because of my back pain, I am more irritable and bad tempered with people than usual.
- Because of my back, I go upstairs more slowly than usual.
- I stay in bed most of the time because of my back.

This questionnaire is taken from: Roland MO, Morris RW. A study of the natural history of back pain. Part 1: Development of a reliable and sensitive measure of disability in low back pain. Spine 1983; 8: 141-144. The score of the RDQ is the total number of items checked – i.e. from a minimum of 0 to a maximum of 24.

### Alpine Chiropractic Informed Consent

Every type of health care is associated with some risks of potential problems. This includes chiropractic health care. We want you to be informed about potential problems associated with chiropractic health care before consenting to treatment.

Chiropractic adjustments are the moving of bones with the doctor's hands or with the use of a mechanical device or machine. Frequently adjustments create a "pop" or "click" sound/sensation in the area being treated. In this office we used trained staff personnel to assist the doctor with massage therapy. Occasionally when your doctor is unavailable, another clinic doctor will treat you on that day.

Neck Artery Dissector and Stroke: Dissection is when the lining of a neck artery breaks down. This might happen spontaneously, or from an injury, or from a trivial movement (hair shampooing, checking traffic, looking up, etc.). Dissections tend to cause neck pain and/or headache. Dissections may form a clot that can dislodge and interfere with blood flow. If that happens, it is called a stroke. Stroke means that a portion of the brain or spinal cord does not receive enough oxygen from the blood stream. The results can be temporary or permanent dysfunction of the brain, with a very rare complication of death. The literature is mixed or uncertain as to whether chiropractic adjustments are associated with stroke or not. Recent evidence suggests that it is not (2008, 2015, 2016, 2019) although the same evidence often suggests that the patient may be entering the chiropractic office for neck pain/headaches or other symptoms that may in fact be a spontaneous dissection of a neck artery. There are no in-the-office tests to diagnose the spontaneous neck artery dissection (2020) but they might be detectable with advanced imaging (CT/MRI, etc.). If we think you may be suffering from a spontaneous neck artery dissection and/or associated stroke, you will be immediately referred to emergency services. Anecdotal cases suggest that chiropractic adjustments may be associated with dissection and/or stroke that arise from the vertebral artery: this is because the vertebral artery is located inside the neck vertebrae. The adjustment that is suggested to increase the strain on the vertebral artery is called the "extension-rotation-thrust atlas adjustment". We do not do this type of adjustment on patients. Other types of neck adjustments may also potentially be related to vertebral artery strokes, but no one is certain. It is estimated that the incidence o this type of stroke ranges between 1 per every 400,000-3,000,000 neck adjustments. If you experience any of the "5 Ds and 3 Ns" before, during, or after an adjustment, tell us i

Disc Herniations: Both back and neck disc herniations may create pressure on the spinal nerve on the spinal cord. They are frequently successfully treated by chiropractors and chiropractic adjustments, traction, etc. Occasionally chiropractic treatment (adjustments, traction, etc.) may aggravate a disc/nerve problem and rarely surgery may become necessary for correction

Cauda Equina Syndrome: Cauda Equine Syndrome occurs when a low back disc problem puts pressure on the nerves that control bowel, bladder, and sexual function. Representative symptoms include leaky bladder, or leaky bowels, or loss of sensation (numbness) around the pelvic sexual area (the saddle area), or the inability to start/stop a bowel movement. Cauda Equina Syndrome is a medical emergency because the nerves that control these functions can permanently die and those functions may be lost or compromised forever. The standard approach is to surgically decompress the nerves, and the window to do so may be as short as 12-72 hours. If you have any of these symptoms, tell us immediately, and if we can't be reached go to the emergency department immediately.

Soft Tissue Injury: Soft Tissues primarily refer to muscles and ligaments. Muscles move bones, and ligaments limit joint movement. Rarely a chiropractic adjustment, traction, massage therapy, etc., may overstretch some muscle or ligament fibers. The result is a temporary increase in pain and necessary treatments for resolution, but there are no long-term effects for the patient.

Rib and other Fractures: Rarely a chiropractic adjustment will crack a rib bone, and this is referred to as a fracture. We adjust all patients very carefully, and especially those who have known osteoporosis. Other fraction locations are extremely rare but possible, especially those aged over 65 years and/or on steroid drugs.

Heat and Ice: We recommend both heat and ice for home care on occasion. Everyone's skin has different sensitivities, and rarely, both heat and ice can burn or irritate the skin. The result is a temporary increase in pain, and there may even be some blistering of the skin. Never put an ice pack directly on the skin. Always have an insulating towel between.

Soreness: It is common for chiropractic adjustments, traction, massage therapy, exercise, etc., to result in a temporary increase in soreness in the region being treated. This is nearly always a temporary symptom that occurs while your body is undergoing therapeutic change. It is not dangerous, but please do tell your doctor about it.

Other problems: There may be other problems or complications that might arise from the chiropractic treatment other than those noted above. The other problems or complications occur so rarely that it is not possible to anticipate and/or explain them all in advance of treatment. Chiropractic is a system of healthcare delivery, and therefore, as with any healthcare delivery system, we cannot promise a cure for any symptom, disease, or condition as a result of treatment in this clinic. We will always give you our best care, and if results are not acceptable, we will refer you to another provider whom we feel will assist your situation. Alternatives to chiropractic care include do nothing, drugs, surgery, acupuncture, massage, etc. Risks from these procedures should be addressed with that provider.

Massage: I understand the massage given here is for the purpose of relief from muscular tension or spasm, and for increasing circulation. Understand the massage practitioner does not diagnose illness, disease, or other physical or mental disorder. As such, the therapist does not prescribe medical treatment or pharmaceuticals, nor perform spinal manipulations. I understand massage is not a substitute for medical examination and diagnosis, and that it is recommended to see physician for any physical ailments I may have. Because the massage practitioner must be aware of existing conditions, I have stated all my known medical conditions and take it upon myself to keep the practitioner updated on my physical, mental, and emotional health.

I have read and fully understand the above statements, and therefore, accept chiropractic care on this basis.

I agree that financial responsibility for my treatment is ultimately my own.

I agree that a fee may be charged if I cancel my appointment less than 24 hours before it begins.
